

Payouts to Community Non-Profits

- Distributions will be made on a quarterly basis in 2017.
- MacHub distributions to community non-profits are based on net proceeds.
- The distribution for a specific non-profit is dependent on the sales volume and donations for the non-profit.
 - For example, if 25% of the sales are associated with a non-profit, they would share in 25% of the net proceeds.
- Payouts are not guaranteed when sales do not cover operational expenses.
- Payouts are not capped, all proceeds will be distributed.
